

Drugs at The Queer Festival

On the festival we wish to create a safe space for people to experiment with their personal boundaries, therefore it is important that we are present and aware of each other. Please help us stay focused on politics rather than drugs and drinking.

Ungdomshuset, the space we are having the festival in this year, also maintains a strict No Hard Drugs policy, and we would like to respect this.

Even though the division between so called "hard" and "soft" drugs is a questionable political concept, we'd like to say: NO HARD DRUGS on the Festival.

Ungdomshuset defines hard drugs as all chemically produced drugs and mushrooms or other hallucinogens.
